

PETSOURCE

by Scoular

With Petsource, we're redefining what start-to-finish looks like. By bringing product development, procurement and multiple processing capabilities under one roof, we provide unparalleled levels of safety, quality, and reliability across the entire pet food supply chain. As today's pet food consumer continues to seek natural, high protein, clean label options, you can rely on Petsource to serve as a key enabler to deliver on these trends.

End-to-End Solution

Freeze-Dried Facility Highlights

We are building a pet food focused, state-of-the-art facility from the ground up in Seward, Nebraska. Our facility will provide a total supply chain solution with the highest levels of quality and safety.

- Expected completion in Fall 2020
- Central U.S. Location
- 106,000 square feet
- Pilot plant currently operational for product development

Processing Capabilities

Customization is available:

- Whole Muscle Dicing
- Blending
- High Pressure Processing / Pasteurization (HPP)
- Cold Extrusion
- Chubbing
- Internal Individual Quick Freezing (IQF)

Packaging

We offer a variety of packing options to suit your needs:

- 40 lb Bulk Boxes
- Retail Pouching
- Club Display Ready Pallet
- Bulk Totes
