

So you want to do a FACILITY OPERATIONS INTERNSHIP?

The Scoular Company is looking for interns to join our Facility Operations team. We are seeking bright, hard-working, goal-oriented individuals to experience all aspects of operating a facility. Interns will be immersed in the daily operations of a grain-handling facility. This internship program is highly-regarded in the industry and successful participation will enhance your resume.

Responsibilities:

- Learn to operate a grain-handling facility safely and efficiently
- Develop successful customer relationships and provide outstanding customer service to help build a competitive and sustainable operation
- Follow safety policies and procedures, ensuring employee safety and protecting company assets
- Learn from experienced superintendents in a high-volume, fast-paced environment

Requirements:

- Demonstrated knowledge of mechanized systems and industry equipment
- Possess a basic understanding of elevator operations
- Show initiative, energy, and customer-service orientation
- Possess effective communication skills
- Working towards a college degree, preferably in agriculture, mechanized systems, or related area

The Scoular Company is an equal opportunity employer.
