Sustainability Grown

Our U.S. soybean farmers follow the conservation regulations and farming practices outlined in the U.S. Soybean Sustainability Protocol, or SSAP. You can rest assured that our farmers have followed guidelines for responsible farming, which means you are purchasing a sustainably-grown product.

Facility Spotlight

Our state-of-the-art cleaning facilities in Andres, IL and Covington, OH have the highest level of food safety standards – certified to the rigorous Global Food Safety Initiative (GFSI) benchmarked FSSC 22000 standards. Our cleaning processes ensure a high-quality, consistent product. We provide multiple processing options to meet every customer's needs.

Scoular is proud to work with family farms. The deep partnership with our soybean farmers—from seed to final product—allows us to deliver the quality you expect. And, we can introduce you to one of our many farm families to help connect your products to the story.

Soybean Products

We offer a broad portfolio of soy traits including clear/dark hilum, high protein, high sugar, firm texture, size specific and more. Customer needs are always our top priority, so contact us to learn more about what we can do for you, including customization.
