The Scoular Advantage

Each member of the supply chain can count on Scoular to connect its value creation with integrity and innovation.

Farmers

Dedicated to cultivating farmer relationships

- Trusted domestic and international markets
- Markets for select & higher valued crops (IP, Organic, Non-GMO, Conventional)
- Vast geographic origination for local needs

Handling Facilities

Access to our nationwide facility network

- 4M+ storage capacity across North America
- Year-round storage and delivery options
- Certified according to the latest food safety and regulatory standards (ISO, FSQR, Non-GMO Project Verified, Organic Certified)

Transportation

Reliability through supply chain disruptions with creative solutions

- Digital innovation
- On-time
- Right price
- Flexible options (truck, rail, barge, container)

Processing

Ensuring high-quality product

- Pristine, state-of-the-art equipment
- Food-grade cleaning and sorting
- Various packaging options (bags, totes, bulk)

Innovation

Discovering what's possible

- Agile with trends & insights
- Planting today's crop genetics that empower food
- Sustainable solutions, including carbon claims
- Product integrity verification & transparency
- Advancing sustainability to inform & enable consumer choice

Delivering Commitments

Managing global relationships and resources

- Financial strength (\$6 billion in annual sales)
- 125+ year history
- Documentation reliability & digitize-focused
