

FLAX

Flax adds a delicious nutty flavor and an appealing visual to a variety of applications. Grown on the fertile soil of the Canadian prairies, Scoular's flax is a nutritionally dense ingredient. Flaxseeds are among the richest sources of plant lignans and are good sources of other nutrients and phytochemicals with cardioprotective effects, such as omega-3 fatty acids and fiber. With over a century of supply chain expertise, you can count on Scoular for safe, quality, and reliable flax ingredients.

Grown, Cleaned & Processed
in North America

Flax is a
Non-GMO Seed

High Level of Food Safety
(GFSI Recognized)

Superfood

Facility Highlights

Our state of the art facility is located in Regina SK, which is the heart of the flax production in the Canadian prairies. This new facility was designed with the highest level of food safety standards in mind - certified to the rigorous Global Food Safety Initiative benchmarked FSSC 22000 standards. Scoular's footprint and processing capabilities allow us to meet the variable preferences of all flax customers.

Scoular is proud to work with family farms. The deep partnership with our flax farmers allows us to deliver consistent supply to maximize value to the end customer.

Product Formats

Whole Flaxseed (brown or golden)
Milled Flaxseed (brown or golden)

Purity Levels:

- 98% purity
- 99.9% Purity
