

Soluble Corn Fiber

Soluble corn fiber, also known as resistant dextrin, is a type of dietary fiber derived from corn. This non-GMO ingredient boasts over 90% fiber and less than 5% sugar, making it a game-changer for the overall nutritional profile of finished products. Soluble corn fiber can be used in various products with its excellent bulking properties, while rarely affecting the desired taste, all with a label-friendly name.

Create tastier, healthier, and more stable products with Scoular's Soluble Corn Fiber.

- **Sensory** – Maximizes the sensory experience of the final product, enhancing softness and crispiness, reinforcing crust, and masking off-flavors.
- **Nutrition** – Enhances the nutritional profile and labeling of the final product, bringing high fiber content while low sugar content with a lower glycemic response value and lower blood glucose curve.
- **Functionality** – Preserves the integrity of the final product allowing consumers to enjoy it just as manufacturers intended.

FSSC 22000 Certified

Labeling Highlights

Each of Scoular's Soluble Corn Fiber solutions is derived from Non-GMO corn. Non-GMO corn offers a more natural alternative to genetically modified varieties. Farmers and consumers who prioritize trait-free purity often choose non-GMO corn for its benefits and ecological impact.

With a certain amount of Soluble Corn Fiber added, 'High source of fiber or 'Good source of fiber' can be claimed on the front-of-package of final products.

Scoular is proud to partner with a leading manufacturer of soluble corn fiber to bring this ingredient to the North American market. With hundreds of years of experience, and innovation, quality, and safety at the foundation, we can provide a consistent and convenient supply for your finished goods.

Product Formats

	Soluble Corn Fiber Powder 90	Soluble Corn Fiber Powder 70	Soluble Corn Fiber Syrup
Dry Solids (g/100g)	Over 95	Over 95	Over 70
Dietary Fiber (Dry Solids)	Over 90	Over 70	Over 90
