

# Plant Proteins

Not all proteins are created equally. For our bodies to function properly, we require protein in our diet to meet certain nutritional requirements. Including plant-based proteins in your formulations ensures you provide products today's customers want to help lead healthy lifestyles, and our breadth of ingredients provides you with options, offering different functionalities to enable targeted solutions.

## Soy Protein

Our Soy Protein Isolates are IP non-GMO and manufactured using carefully selected soybeans in a vertically-integrated supply chain. The functional versatility makes it suitable in a wide range of applications including RTD and powdered beverages, meat and meat analogues, dairy and dairy alternatives, nutrition bars, extruded crisps, snacks and baked items. Our R&D team can customize each soy protein isolate to meet any application need.

**Benefits:**

- Customizable Functional Solutions
- 90% Complete Nutritional Protein
- Non-GMO
- Gluten-Free
- Vertically Integrated Supply Chain
- Cost-Effective

## Pea Protein

Our Pea Protein is a clean label plant protein powder made from yellow peas. Suitable for many different applications including bars, snacks, meat and meat alternatives, extruded crisps, pasta and more.

**Benefits:**

- 80%-86% Protein Options
- Non-GMO and Organic
- Allergen-Friendly
- Range of Options

## Faba Bean Protein

Our Faba Bean Protein is a clean-label plant protein powder that is light in color. The creamy mouthfeel and neutral flavor make it suitable for a wide range of applications, including RTD and powdered beverages, nutrition bars, dairy and dairy alternatives, and bakery items such as tortillas.

**Benefits:**

- 90% Protein
- Clean Label, Non GMO
- Allergen-Friendly

## Brown Rice Protein

Our Brown Rice Protein is a plant-based protein powder made from Non-GMO brown rice utilizing a highly consistent enzyme extraction method. Often combined with other plant-based proteins to create a complete protein profile, it is commonly used in RTM powders, nutrition bars, snacks, and more.

**Benefits:**

- 80% Complementary Protein
- Non-GMO, Organic
- Allergen-Friendly

## Mung Bean Protein

Our Mung Bean Protein is a clean-label plant protein powder extracted from mung beans. The functionality and flavor make it suitable for applications where high water holding and emulsification properties are desired, like meat and seafood analogues, dairy alternatives, snacks, frozen desserts, and baked items.

### Benefits:

- 80% Protein
- Clean Label, Non-GMO
- Allergen-Friendly

## Chickpea Protein

Our Chickpea Protein is a high protein ingredient supporting clean-label, non-GMO and plant-based innovations through functionality, nutrition and neutral flavor. Suitable for many different applications including bars, snacks, meat and meat alternatives, extruded crisps, pasta and more.

### Benefits:

- 80% Protein
- Clean Label, Non-GMO
- Allergen-Friendly
