Fermented Dried Seaweed

In Partnership with SEADLING

Enhance pet health and wellness with Scoular's new offering of innovative Fermented Dried Seaweed. Made using proprietary fermentation technology, these ingredients enrich formulations by providing natural binding benefits, helping manufacturers gain a competitive edge while maintaining palatability and clean labeling.

Fermented Dried Seaweed is ideal for pet treats, supplements, and complete diets. Seaweed is nutrient-rich, bringing many different benefits for pets, including aiding skin, coat, gut and dental health. It is also naturally high in Vitamin K2 which is shown to assist brain function, bone development, and cardiovascular health.

- Functional Benefits
- Nutrient-Rich
- Organic & Non-GMO
- Clean Label
- Sustainable & Natural
- Enhanced Palatability
- Manufacturing Compatibility
- Natural Binding Benefits

Share the Sustainability Story

Scoular is proud to partner with suppliers paving the way in sustainability. SEADLING's commitment is grounded in a vision for a world where the health of our oceans is central. Seaweed, often praised as 'nature's superfood' and 'a guardian of our oceans,' stands out as a natural solution to address critical global challenges such as climate change mitigation, food supply security, economic stability, and the revitalization of diverse ecosystems.

Our Fermented Dried Seaweed product is farmed in Malaysia, harvested by local farmers, and has a positive impact in sequestering carbon and aiding ocean biodiversity.

SEADLING's Key Impact Areas For Sustainability

- Regenerating Ocean's Health
- Community Livelihoods
- Women Empowerment

Origin Highlights

Cultivated in Borneo, a world-renowned hotspot for diverse seaweed varieties. The pristine waters of this region ensure the purity and quality.

- Tropical climate ensures a year-round supply.
- Farmed, not wild harvested, for consistent nutritional content.
- Low in iodine compared to kelp and ascophyllum seaweed.

Functional Benefits

Dental Health

- Strengthens teeth and bones.
- Boosts beneficial antioxidants to protect tissues and fight damage.
- Provides natural cleaning action.
- Reduces bad breath.

Suggested Applications: Dental Chews, Jerky Treats, Dry Kibble
