Flaxseed Processing Facility

Richardson, Saskatchewan, Canada

Scoular is a beginning-to-end supply chain solutions provider for high-purity flaxseed products. We clean, package and ship from our facility, helping customers receive product quickly and efficiently. Whole and milled flaxseed is available in both brown and golden varieties for applications ranging from pet food and livestock feed to food, nutraceuticals and high ALA and Omega-3 oil and food applications.

Strategically located

Located in the heart of the Canadian prairies, our facility sits near the majority of Canada's flax production. Direct relationships with growers and a strong origination network help ensure dependable, year-round supply.

Food safety & quality

Designed exclusively for flax processing, the facility operates to rigorous Global Food Safety Initiative-recognized standards and is benchmarked to FSSC 22000 requirements. The site also provides Kosher certified products and processes in a nut- and tree nut-free environment.

Serving Diverse Markets

Feed

Consistent, high-quality flax ingredients supporting livestock nutrition.

Pet Food

Premium flax ingredients that support formulation needs in pet food and treats.

Nutraceuticals

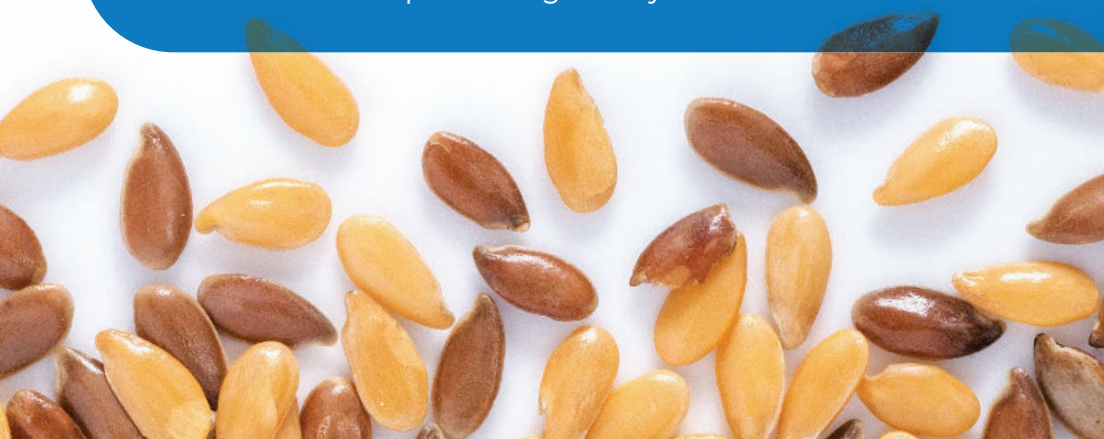
Naturally rich in omega-3 fatty acids, fiber and plant-based nutrition.

Food Ingredients

Flax for bakery, cereals, snacks, tortillas, crackers, bars, mixes & functional foods.

Why customers choose Scoular

- Reliable year-round supply
- High-purity food-grade products
- Flexible packaging options
- Integrated logistics expertise
- Dedicated flax processing facility



Strategic Partner for NuLin

NuLin® VT50 Golden Flaxseed

NuLin® VT50 is an identity-preserved variety of golden flaxseed exclusively handled by Scoular. It offers elevated ALA omega-3 and iodine levels compared with conventional flax varieties, making it an excellent choice for health-focused food applications.

Key Benefits

- Identity-preserved supply chain
- Elevated ALA omega-3 content
- Higher iodine levels versus conventional varieties
- Available non-GMO
- Gluten-free, soy-free, nut- and tree nut-free
- Suitable for vegan and health-forward formulations

High-Purity Flaxseed Products

Brown Flax

Golden Flax

Milled Brown Flax

Milled Golden Flax

- Available in identity-preserved and Non-GMO options
- 99.9%, 98% & 92% purity levels
- Grown, cleaned and processed in North America
- Naturally gluten-free, soy-free, nut and tree-nut free
- Supports a variety of label claims
- Available in 25 kg bags, totes, and bulk container, including rail
